Explanation:

TIN Matching results come in an easy-to-read Excel document. Mismatches, highlighted in red, are described under the "Result Message" column.

Potential Result Messages include:

- 0 Name/TIN combination matches IRS records.
- 1 Missing TIN or TIN not 9-digit numeric.
- 2 TIN not currently issued.
- 3 Name/TIN combination does NOT match IRS records.
- 4 Invalid request (i.e., contains alphas, special characters).
- 5 Duplicate request.
- 6 (Matched on SSN), when the TIN type is (3), unknown, and a matching TIN and name control is found only on the NAP DM1 database.
- 7 (Matched on EIN), when the TIN type is (3), unknown, and a matching TIN and name control is found only on the EIN N/C database.
- 8 (Matched on SSN and EIN), when the TIN type is (3), unknown, and a matching TIN and name control is found on both the NAP DM1 and the EIN N/C databases.
